

HOW TO TURN
YOUR HIDDEN
COSTS INTO
VISIBLE SAVINGS.

 **KYOCERA**
Document Solutions

HOW DOES IT WORK?

Managed Document Services (**MDS**) is a simple 5-step process:

- > We identify exactly what your print costs are, where your money is being spent and more importantly where savings can be made.
- > We re-design your documentation workflow so that your savings can be implemented.
- > We introduce these changes into your business without disruption.
- > We monitor the new system to constantly improve performance.
- > We adapt the system as your business evolves.

WILL IT WORK FOR ME?

Each MDS is custom made to suit the individual nature of the business it is designed for.

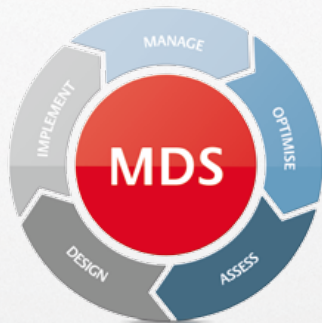

MDS will work with all print devices and brands of device. Company size, number of locations and fleet size make no difference to implementation and operation.

WHAT ARE MY BENEFITS?

- > Significant savings usually around 30% of your print budget.
- > A streamlined document workflow.
- > Less down time of devices.
- > Less administration.
- > A system that will adapt to your business as it evolves.

HOW DO I BEGIN?

Simply call us and we will arrange for one of our consultants to visit your location and the process will begin.

WITH **MANAGED**
DOCUMENT SERVICES.

On average a company can save around 30% of its printing costs by using KYOCERA's Managed Document Services ... quite a saving for any company.
